- Docker

DOWNLOAD MY CV

Bartłomiej Krawczak

Junior PHP Developer

My name is Bartłomiej Krawczak. I graduated in computer science from the Catholic University of Lublin. Currently, he has been working as a PHP developer at RSoftStudio for two and a half years, creating software for public clients. I'm working on a document management system there. I introduce corrections and create new functionalities. My specialty is programming. I'm not afraid to learn and use as much technology as I need. Personally, I feel good in front-end technologies such as HTML, CSS, Angular, React. I can also write in back-end technologies such as Laravel, Codeigniter, Zend Framework and PHP.

Projects

All my projects are on [Github](#).
